

FONDOVALLE

a LIFE+ project in partnership with:

IRIDE

UNIVERSITÀ
DEGLI STUDI
DI PADOVA

W-LAP

greening the world

W-LAP is an **innovative project** for the drastic reduction of **water consumption** and the nullification of **levigation sludge production** during **surface finishing operations** on ceramic tiles.

W-LAP is an **innovative additive polishing technique**.

W-LAP is realised with the contribution of the **LIFE** financial instrument of the **European Union**.

W-LAP is **GREENING THE WORLD**.
